Jay Thorson, Stanford, withdrew after nine events; Garner Williams, Arizona, withdrew after eight events.

**Top five placewinners surpassed the NCAA qualifying standard in the event.

MIKE RAMOS: "That was about a 3800 the second day, close to my best. I was disappointed I didn't get the record. I was happy I won. I would like to have the javelin over. The discus also. Both my warmups in those events were good. I just wanted to get the record (going into the last event where he needed to run 4:48 and ran 4:49.50), I knew I had won it."

TEAM TOTALS (1 event): 1. Wasington 14, 2. UCLA 9, 3. USC 6, WSU 2

KEN FLAX, HAMMER WINNER: "It hasn't really hit yet. I kept the sweats on and it helped me keep loose. If I get chilled it's a distraction. At first I thought the throw was too steep. I'm glad it came out. I'm pretty much on course. That puts me ahead of a lot of others. It's a good confidence builder. I thought I might have overdone it in training, because I was tired yesterday. The Stanford people kept saying Pickering could pop a big one, so I was a little worried about that. The UO record was a goal, something to work for. The Pac-10 title is a stepping stone. My old PR came here. It's the best circle in the Pac-10, smooth but good adhesion. I think it's a great ring. If we could have it at the NCAA's it would produce some great throws. Yes, this is where I got the car. On my last warmup throw last year (day before UO-WSU dual) I bounced it over the fence and into some guy's three-day old Camaro. He was really ticked."

JULIUS KORIR, WSU QUOTES: "I'm very happy with my time and winning the event. It felt good to help the team. I was expecting to break the Pac-10 record, but missed some steps on the barriers and it slowed me down. I find it hard to run in Pullman because of the weather."

RICHARD TUWEI, RUNNERUP: "I had lost 20 pounds because of the flu, so I wasn't able to train hard during the winter. Right now I'm getting back into shape with the Olympics as my main goal. I knew I was going for second or third because Julius is in great shape."

JOHN BRENNER, UCLA QUOTES: "I'm always happy to win, but today was the worst I have felt in a few months. The ring was very slick and the harder I tried the worse I slipped. I was hoping to get over 70 feet today so I was not pleased with the distance. I didn't feel there was much pressure on me because I have thrown 70 feet. Seemed like a practice, I need the pressure to make the big throw. I have improved every year mainly because my technique gets smoother and smoother, plus I have gotten stronger and stronger."

BRIAN CROUSER, OREGON QUOTES: "It's fine to win, but I'm really looking for distance right now. I wasn't satisfied with the throw. I wanted to go 90 meters today. All the pieces of the puzzle were there, I just couldn't put them together. I try to get an easy opener. I was relaxed and that helped me. After the first throw I was frustrated. I wanted to go farther, but I was pressing the rest of the way. This was only my second full competition this season, and the more I throw the better I'll be."

VANCE JOHNSON QUOTES: "I expected Frazier (ASU) to jump better. I should have won my freshman year and my sophomore year. I'm really excited about it. I had a good day, I just had trouble getting on the board. All my scratches were within two inches of the board. I wanted to train through the Pac-10. I was looking forward to a 26 or 27 footer. I'd heard they had a really good facility and I wanted to hit 27 feet and get the crowd excited. They don't get excited about 25 footers. I was surprised 25-10 won it. I could have sworn Tave (USC) had beaten me on his last jump."

JIM HILL, ORE. QUOTES: "I'm happy to win. This was only my third 1,500 so I didn't know if it was a fast pace or not. I wanted to kick at the last 400 someone else had the same idea and we kicked heels. I thought I was going to fall, but I regained my balance. The most important thing was to come up here and win. It was a little windy, but that didn't bother me. I was used to this kind of weather. It has been the same in Eugene. I like the 1500 because it is a fast race and doesn't take much time."

I was third my first year, then second. It's good to win. I was in good position at the fifth hurdle, then I took off. I went right by Ward and never anyone after that. I tried not to make a mistake and let them back in it. I didn't want Ward to go out and then have to catch him. I had to cut my steps and do 14 instead of 13 but I was still okay by the fifth hurdle."

JAMES CUNNINGHAM, WSU, QUOTES: "I just wanted to do the best I could. If that meant that I would win, then that is fine. The main thing was to have fun out there today. The weather effected all the jumpers. There was a lot of slipping on the take off. It means a lot to me to win. I know have a title to my name. It is espically nice to win at home in front of the home fans. I didn't think 7-2 would win it. I went in thinking it would take a jump of 7-5 to win. When the bar fell before my jump it didn't bother me. I knew it was a good jump and I would just have to do it again. It really helps that Brent Harken and I train together. We help each other all the time. We both did well and that is what really counts."

LUIS MORALES, USC, QUOTES: I felt I had a pretty good chance of winning after the PR yesterday. I know that (Rod) Barksdale is fast on the straight away but I knew that if I good a good start and did well on the curve I would have a good chance of winning. I was leased with the race. I started off badly at the beginning of the season but I am glad it is all coming together now -- when it counts.

JULIUS KORIR, WSU, QUOTES: "I felt good coming into to the race, but I was not expecting to win. I thought I would finish third or fourth. After the sixth lap, I felt strong. I knew I could out sprint Ansberry. I thought he was somewhat tired and I felt strong. It is very good for my confidence. I did not noticed everyone dropping out. I thought Richard (Tuwei) would win, but he was out of shape."

JOHN BRENNER, UCLA QUOTES: I thought I threw well considering the weather conditions. I think some of the other guys went for it all too soon, and it cost them. I fell off my PR by about eight or nine feet and I'm sure it was pretty much the same for the others. But, I knew I was in pretty good shape after the 188 in the second round.

OUTSTANDING ATHLETE: Julius Korir, Washington State

GABRIEL TIACOH, WSU QUOTES: "Before the race, I had a foot cramp and I wasn't supposed to run. I didn't feel any pressure. I just ran easy for the first part, relaxed and felt okay. The last 150 I said 'let's go.' I wasn't panicking." (45.13 split).

JOHN CHAPLIN, WSU HEAD COACH: "I'm pleased. The highlight was the mile relay and doing well in the sprints. I'm really pleased with Durr (Kris). We've already told him when he came here that he will move to the 800 next year. Forty-five second 400 guys are a dime a dozen but not so with 1:45 800 meter guys. But he'll sure scare them to death this year. I put a lot of guys in the 5000 because they were entered and I didn't want somebody beating somebody else in the team score just because we pulled some people out. Tuwei split a shoe, and I told Omar (Ortega) to see how he felt after a mile and he was tired after getting boxed. It's nice to win the title, I can't lie to you. And if you're going to win it, it's nice to win it at home. It's too bad about the weather. It was nice until today. The NCAAAs are hard to say. We've got to double people to do it and that's always shaky. Oregon should be favored at home. We'll be in the top five. If your time has come to win it, you'll win it."
